

STRONG ARM

CYANOACRYLATE ADHESIVE KIT

AVAILABILITY: Kit SKU# 6559 or in cases.

Instantly bonds a variety of materials.

Instantly bonds a variety of materials, including glass, ceramic and plastics. Ideal for use in applications that require good “wicking” characteristics and/or in close fitting applications. High speed industrial production.

PRIMER FOR STRONG ARM ADHESIVES

Promotes curing in difficult to bond places.

Engineered to effectively remove contaminants and increase the cure speed of Strong Arm Adhesives. Increases the ability to bond other difficult materials such as silicone, rubber and thermoplastics elastomers.

2 fl. Oz. bottle & 6/cs - SKU# 6589

GEL CYANOACRYLATE

Adhesive Gel that bonds a variety of materials.

Engineered to tackle the most difficult of substrates. From EDPM elastomers to a wide range of plastics, metals, wood and ceramics. Gap-filling viscosity that handles dissimilar substrates.

20 gram tube & 12/cs - SKU# 6583

INSTANT BONDING CYANOACRYLATE

Instantly bonds a variety of materials.

Engineered to tackle the most difficult of substrates. From EDPM elastomers to a wide range of plastics, metals, wood and ceramics. Instant Set-Up viscosity that handles dissimilar substrates.

2 fl. Oz. bottle & 12/cs - SKU# 6585

ACCELERATOR FOR CYANOACRYLATE

Speeds the curing process.

Designed to cause the cyanoacrylate to polymerize instantly. Has no effect on the ozone layer, and can be used to improve gap-filling abilities of cyanoacrylate. Non-Flammable, Non-Toxic and Non-Carcinogenic.

2 fl. Oz. bottle & 6/cs - SKU# 6587

DE-BONDER FOR STRONG ARM ADHESIVES

For clean-up of cured cyanoacrylate.

Designed as a fast acting de-bonder for Strong Arm Cyanoacrylates. Fast acting, safe and very effective. Safely dissolves cured cyanoacrylates. Can be used on skin. Can be sprayed on or used with brush application.

2 fl. Oz. bottle & 6/cs - SKU# 6591
