

HAMMER DRILLS

SKU #01179 7 pc Hammer Drills Set

Aggressive durable carbide tip allows for easy centering and fast drilling.

Slot Drive System (SDS shank) hammer bits fit most rotary hammers. Vacuum brazed with pure copper and a heat treated body make for a stronger bit.

- Carbide tip allows easy centering and fast drilling.
- Dynamic chisel-shaped bit head ensures swift penetration.
- Reinforced flute geometry reduces vibration, transfers more impact energy to the cutting face and quickly channels debris from the hole.
- Balance of tip and flute geometry ensure perfectly round holes giving superior anchoring.
- Set includes 3/16, 1/4x4, 1/4x6 (2), 5/16x6, 3/8x6, 1/2x6.

MAIN USES:

Highway Rails
Structural Supports
Pipe Mounts
Electrical Mounts
Bridge Construction
HVAC Mounts
Machinery Mounts
Door & Window Frames
Roofing
Brackets

MATERIALS:

Concrete & Stone
Masonry
Grout Filled Block
Hollow Block
Solid Brick
Hollow Brick
Cement Board
Granite
