Excellent for cargo that needs to be frequently tied down and for short hauls.

They have simple tensioning and a one finger quick release thumb button. Cam buckle teeth will not slip and nylon and polyester webbing stands up to the most demanding applications.

Features:

- Up to 2,200 lb. break strength.
- Up to 730 lb. working load limit.
- Coated S-hooks provide added rust protection.
- Engineered stitching and sewn handholds.
- Available in 6', 8' and 12' lengths.
- Sold two to a pack or by the pair.
- Free corner protector included.
- Tested in accordance with ASTM standards. DOT (Department of Transportation), CHA (CA Hwy Patrol) and WSTDA (Web Sling Tie Down Assc.) compliant.
- Available in: yellow, black and neon green.

Estimate the size and weight of the item or cargo to be tied down and choose the tie down with a load capacity equal to or greater than the weight and required length of the cargo.
