

First Aid Bus Safety Kit

A NECESSITY FOR SCHOOL BUS AND OTHER PUBLIC TRANSPORTATION

Federal regulations require buses operating at public expense to carry a First Aid Kit and Body Fluid Clean-Up Kit. DCT's Bus Safety Kits meet the most recently published 2005 National Minimum Standards. Each state has individual specifications for the contents of each kit. Ask your Sales Representative for your state's specifications.

Bus Safety Kit

- Specially packaged to meet your state's requirements.
- Designed to treat any first aid emergency: Scrapes, Cuts, Bumps, and more.
- Packaged in a sturdy, reusable plastic case.
- Container is wall mountable.
- Complete refills are available upon request.

- Minimum of 5 per order on kits or refills

Body Fluid Clean Up Kit

- Specially packaged to meet your state's requirements.
- Contents meets or exceeds OSHA Regulations.
- Includes a complete package for fluid pick-up and bio-hazardous contaminants: Blood, Urine, Vomit.
- Packaged in sturdy, reusable plastic case.
- Container is wall mountable.
- Complete refills are available upon request.

- Minimum of 5 per order on kits or refills

**Both Kits
