

# DP4 MULTI-PURPOSE FACE SHIELD

**Combines clear anti-fog window with shade 5 IR flip-up lens for use in grinding, cutting and brazing operations.**

Full face protection from splash and/or impact is commonly required for work on or in the presence of human pathogens, some laboratory chemicals, explosion hazards, heavy grinding, heavy spraying or splashing, and with large quantities of dangerous liquids such as acids, bases and many organic liquids. A face shield can also provide extra protection against extreme temperatures.

- Clear anti-fog window for grinding
- Shade 5 IR window for cutting and brazing
- UV absorbing polycarbonate windows
- Available with hard hat attachments
- Supplied with a ratchet headgear providing a perfect fit every time
- Meets ANSI Z87.1 2003 Standards
- CUL Certified to meet CAN/CSA Z94.3 Standards
- Only face shield in the market that meets ANSI Z49.1 Standards for plasma cutting

**Keep most particles and debris away from your face.**

DCT face shields offer excellent facial protection against dust, particles and chemical splashes.
