

BAHCO HOLESAW SYSTEM

Everything you need to make perfect holes.

Set a new standard in precision, quality, durability and versatility with a Bahco Holesaw. Designed as a fully interchangeable system, this full line of arbors, arbor extensions, pilot drills, drive plates, ejector springs and adaptors maximizes the performance and flexibility of BAHCO® holesaws.

- Creates clean, accurate holes in most machinable materials, including brass, stainless steel, steel beam, and wood
- Knockout holes allow easy core removal
- High speed cutting edge consists of electron beam welded to tough alloy back
- Cutting depth of 1-1/2" for all diameters
- Hardened arbors provide maximum strength
