

MORSE HAND HACK SAWS

Great for quick cuts on hard surfaces such as pipes, tubing, wood, plastic, or any machinable metal.

Bi-Metal Hand Hack Saws

- Tooth Hardness of 65-67 on the Rockwell Scale.
- The high heat and wear resistance promotes longer life and safer operation.
- The Bi-Metal Construction offers optimal blade flexibility.
- Fast Cutting blade will not shatter.
- Less TPI used for softer materials while more TPI is used for metal.
- Made in the U.S.A.

Available in Pouches of 10 Blades Each.

Variable Pitch - Multiple TPI mixed in

Standard Pitch - All teeth are the same

Standard Pitch	TPI (Teeth Per Inch)
12" x 1/2" x .025	14
	18
	24
	32

Variable Pitch	TPI
12" x 1/2" x .025	20/24
