

MCRIPPER

McRipper is the all-purpose bi-metal heavy-duty reciprocating demolition blade.

- The M2 cutting edge provides shock resistant teeth that rip through all woods, metal, and nail-embedded wood.
- A powerful blade at 7/8-inch (225mm) wide and .062 thick
- Greater strength with less vibrations is especially suited for tough demolition jobs
- Lasts longer than typical saws of its kind
- Made in the USA
