

TOOL MAGNETIZER/ DEMAGNETIZER

Instantly Magnetize or Demagnetize Steel Tools & Small Parts

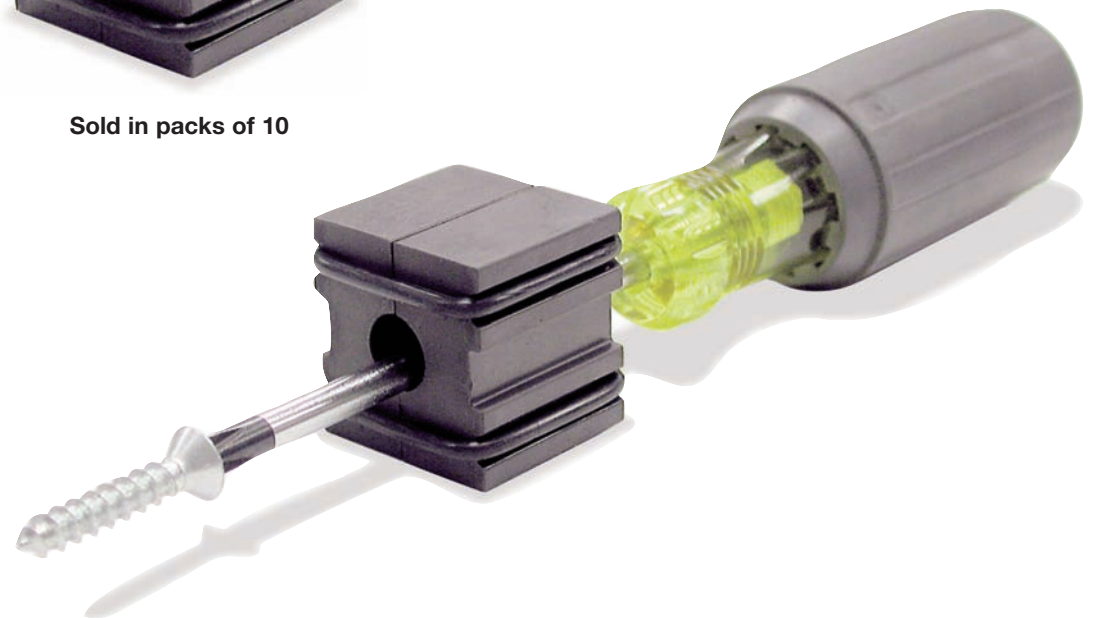

Make it easy to work with screws and nuts. The Magnetizer/Demagnetizer is your perfect solution.

Simply slide your screw or nut driver through the center hole and you're magnetized. You no longer have to worry about dropping screws or nuts when working on a project.

When you no longer need the driver magnetized, simply slide it along the side of the Magnetizer/ Demagnetizer.

Sold in packs of 10

The longer the driver sits in the Magnetizer/Demagnetizer, the stronger the magnetization
