

RATCHETING SCREWDRIVERS

The optimum screwdrivers for any job.

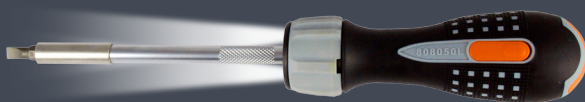

These dynamic screwdrivers utilize a heavy-duty ratcheting mechanism for dependable and consistent operation. They are perfect for any job where you need a lot of power in a tight space. Great for under the hood of cars, trucks, buses, etc.

AVAILABLE IN TWO OPTIONS:

- **LED Light** allows for increased vision in low-light environments.
- **Swivel Pistol Grip's** handle turns and locks at 30° position for application of higher torque when necessary

FEATURES:

- Ratchet easily reverses with no need to reposition
- Knurled blade for fast spinning of fasteners
- Handle's high friction surface provides comfort, torque and extra grip
- Bits conveniently stored in handle and easily released at the push of a button
- Includes 6 bits: 2 slotted, #1 Phillips, #2 Phillips, PZ1, PZ2
- Blade tip has magnetic 1/4" universal bit holder
- 45 tooth gear with 8 degree engagement makes for ease of use in tight areas
