Smart Grip Pliers

Cobra Pliers Extra Slim

The pliers of choice for tight spaces.

- Very slim construction of head and joint area for working in confined areas
- Long narrow jaws
- One-handed operation
- Self-locking on pipes/nuts
- Capacity: Pipes to 1-1/4", Nuts to 1-5/8"

Applications:

- Water Pumps
- Maintenance
- Equipment Repair
- Automotive
- HVAC
- Hydraulic Maintenance
- Confined Areas

Safety Features:

- Low hand force required
- Hardened teeth for secure gripping & low wear
- Guard prevents pinched fingers

Raptor Pliers

Precision pliers great for rounded edges, heavily coated work pieces or rusted nuts.

- Slim profile and lightweight
- Smooth jaws avoid scratching, marring or damage to delicate fittings
- Instant adjusting memory button retains jaw opening
- 15 adjustment positions for precise fit
- Capacity: 3/8"-1-1/4"

Applications:

- Vehicle Maintenance (Axle Studs, Transfer Case, Housing Bolts, etc.)
- Any Rounded or Rusted Workpiece
- Waste Water Treatment Plants (Pump Maintenance)

Safety Features:

- Low hand force required
- Textured non-slip handles

Smart Grip Pliers

A simple squeeze of the handles provides a self-controlled automatic adjustment on the work piece. Great for frequent change over to different sized work pieces.

- Very slim construction of head and joint area
- Box joint provides high stability & secure catching
- One-handed operation
- No slipping on pipes/nuts
- Capacity: Pipes 1/8"-1-1/4", nuts to 1-3/8"
- Locking lever for space saving transport

Applications:

- Replaces All Conventional Pliers

Safety Features:

- Low hand force required
- Hardened teeth for secure gripping & low wear
- Guard prevents pinched fingers
