- CHROME-VANADIUM STEEL JAWS FOR EXCEPTIONAL STRENGTH

LINESMAN'S PLIERS

- SECURE NON-SLIP GRIP
- JOINT PLACEMENT INCREASES LEVERAGE TO REDUCE CUTTING FORCE NEEDED
- SERRATED GRIPPING SURFACE
- SECOND GRIPPING SURFACE

LONG NOSE PLIERS

- PROVIDES EASY ACCESSIBILITY IN CONFINED SPACES
- ON/OFF RETURN SPRING
- SERRATED JAWS
- HIGH PERFORMANCE TOOL STEEL FOR EXTRA STRENGTH

THE FIRST SCIENTIFIC APPROACH TO TOOL DESIGN

Back in the early 1980's, BAHCO became one of the first toolmakers in the world to institute a scientific approach to designing truly ergonomic tools. The BAHCO® 11-Point Ergonomic Design Program starts with research into end users, their tasks and the limitations of the tools they currently use. Their research has revealed that comfort and ease of operation are a tool's two most important characteristics. These tools are designed to reduce fatigue, cramping and injuries like blisters. By minimizing skeletal and neuromuscular strains, BAHCO tools help prevent long-term repetitive motion injuries and ultimately make life a lot easier for the professionals who use them.

CURVED NOSE PLIERS

- PROVIDES EASY ACCESSIBILITY IN CONFINED SPACES
- ON/OFF RETURN SPRING
- HIGH PERFORMANCE TOOL STEEL FOR EXTRA STRENGTH

SIDE CUTTING COMBINATION PLIERS

- SECURE NON-SLIP GRIP
- JOINT PLACEMENT INCREASES LEVERAGE TO REDUCE CUTTING FORCE NEEDED
- ON/OFF RETURN SPRING
- HIGH PERFORMANCE TOOL STEEL FOR EXTRA STRENGTH

IRON WORKER'S (REBAR) PLIERS

- ONE HANDLE IS BARE AND POLISHED FOR EASY SLIDING OF FINGERS DURING PULLING OPERATIONS
- ON/OFF RETURN SPRING
- DEEP SERRATIONS IN JAW FOR SUPERIOR GRIP

8" EXTRA WIDE JAW ADJUSTABLE WRENCH

- SLIM HEAD DESIGN COMBINES ACCESSIBILITY TO THE FASTENER WITH THE STRENGTH TO MOVE IT
- 12" CAPACITY IN AN 8" WRENCH

FREE w/set

6" ADJUSTABLE PIPE WRENCH

- UNIQUE REVERSIBLE JAW COMBINES A REGULAR ADJUSTABLE WRENCH WITH PIPE GRIPPING FEATURES
- TEETH ARE AGGRESSIVELY ANGLED TO GIVE A BETTER GRIP WITH INCREASED TORQUE

FREE w/set
