OVER GLASSES

As the name suggests, these protective glasses fit over existing prescription glasses, providing additional protection. Featuring a single-piece, scratch resistant lens made of hard-coated, UV absorbing polycarbonate, these glasses offered outstanding peripheral vision with optic clarity. Super soft, hypo-allergenic nose bridge.

Available in Clear or Smoke

EXTRA LARGE OVER GLASSES

Lightweight comfortable design is perfect for visitors passing through hazardous areas. Made to be worn over prescription glasses, these glasses feature 5 3/4" temples, fixed sideshields, frosted browguard and universal fit nosebridge.

Available in Clear only

GOGGLES

CHEMICAL GOGGLES

These goggles provide ideal protection against chemical splashes. They feature indirect venting and a clear anti-fog lens. Adjustable neoprene strap. Goggles will fit over most prescription eyewear.

Available in Clear only

DUAL MOLD GOGGLES

Who would have thought that goggles could be so stylish? Perimeter ventilation allows air to flow around the lens and prevents fogging. Molded rubber lining provides a soft, comfortable seal. Adjustable neoprene headband. Clear, anti-fog polycarbonate lens.

Available in Clear only

FACT: ALL OF OUR PROTECTIVE EYEWEAR IS ANSI APPROVED AND PROVIDES 99.9% UVA/UVB PROTECTION

FACT: OSHA estimates that 90% of workplace eye injuries can be prevented by wearing proper eye protection.

FACT: OSHA requires eye protection to provide adequate protection, be reasonably comfortable, fit securely while not interfering with movement or vision, be kept clean, be durable and fit over or incorporate existing prescription eyewear.

FACT: Eye protection should be worn whenever there is a risk of flying particles, chemicals, dusts, mists, molten metal splash or splatter, blood or infectious materials.

FACT: Protective eyewear must meet American National Standards Institute (ANSI) standard Z87.1-1989 which requires impact and penetration resistance, minimal protection against chemical, dust and debris, include side shields or wrap-around lenses.
